

NEW PRODUCT RELEASE

50A HD Battery Connector Covers

FEATURES

- Easy to install
- Suits up to 6 B&S cable
- IP64 - Dust and water resistant
- Resistant to UV and chemicals

Narva heavy duty or Anderson type 50A connectors have become the predominant connector in the Australian 4x4 and outdoor market for both interior and exterior applications.

The new Narva HD 50A connector covers are designed to form an extra layer of protection from the elements when fitted in exterior applications and provides complete protection from dust and partial protection against water as well as other chemicals like oil, fuel etc.

The Narva HD connector covers are designed to suit up to 6 B&S cable which ensures they are suited for any size cable used with a 50A connector.
