### DESCRIPTION

The ULTIMA 180 LED Driving Light delivers exceptional illumination in a compact, high-powered design, ideal for vehicles with limited bullbar space. Packed with advanced features and cutting-edge technology, it outperforms expectations and sets a new standard in driving light performance.

### FEATURES AND BENEFITS

- Compact yet powerful, providing illumination comparable to most 9" driving lights.
- Delivers up to 20% more output than the MK2, ensuring superior visibility in all conditions.
- Hybrid beam design combines the benefits of spot and flood beams for maximum light spread and distance.
- Operates on a wide voltage range of 9–33 volts, suitable for various vehicle setups.
- Seamlessly integrates with the Ultima Connect+ Controller for advanced lighting control options.
- Includes a 500mm flying lead with a pre-wired 6-pin Deutsch® Connector for secure and efficient installation.
- Features a satin bezel with the option to redeem a black bezel for a customisable aesthetic.

<b>IP Rating</b>	IP68 + IP69K
<b>Current Draw</b>	9.45A at 13.5V
<b>Design Registration Number</b>	201610579
<b>Effective Lumens per lamp</b>	11,261Lm/ 12,463Lm (Boost)
<b>Colour Temperature</b>	5700°K
<b>Operating Temperature</b>	-40°C to +65°C
