### DESCRIPTION

The ULTIMA 215 LED Driving Light is designed to provide superior illumination for even the largest vehicles. Offering exceptional performance and advanced technology, it delivers a powerful, focused beam for maximum visibility.

### FEATURES AND BENEFITS

- 278W output with a precision-engineered spot beam for unmatched distance and clarity.
- Provides up to 20% more distance than the MK2 model, enhancing long-range visibility.
- Operates on a wide voltage range of 9–33 volts, suitable for various vehicle configurations.
- Compatible with the Ultima Connect+ Controller for advanced lighting control.
- Sleek satin bezel design for a premium aesthetic.
