

## ULTIMA 215 MK3 DRIVING LIGHT 71748

### DESCRIPTION

The ULTIMA 215 LED Transport Driving Light Kit is purpose-built for large vehicles running four lights, delivering unmatched lighting performance and flexibility. Designed for ease of installation and optimal control, it ensures superior visibility tailored to your needs.

### FEATURES AND BENEFITS

- Specifically designed for large vehicles utilising four lights for maximum illumination.
- Allows independent control of spot and hybrid beams, enabling true pattern customisation.
- Reduces road sign glare without compromising long-distance lighting performance.
- Quick and easy installation for enhanced convenience.
- Sleek satin bezel design for a premium aesthetic.
