

## EUROTECH HD LED STROBE 85264A & 85268A

P/No. 85264A

P/No. 85268A

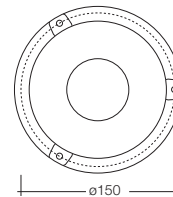

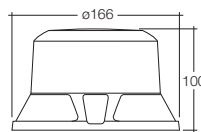

### DESCRIPTION

The Eurotech HD strobe range is designed for durability, safety, and versatility, perfect for larger vehicles in harsh conditions. With a 150mm footprint, robust construction, and SAE Class 1 rotating pattern, these strobes offer excellent visibility, vibration resistance, and automatic day/night switching, making them ideal for industrial and mining use.

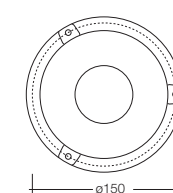

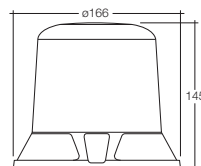

### FEATURES AND BENEFITS

- SAE Class 1 Approved rotating pattern for maximum visibility
- Larger footprint (150mm) with high-profile design for larger vehicles
- Heavy-duty polycarbonate lens and die-cast aluminum base for vibration resistance.
- Upward-facing LEDs for enhanced safety on industrial and mining sites (P/No. 85268A)
- Automatic day/night light sensor for seamless operation.
- Radio Safe Level 5 - 85264A

Part No.	85264A	85268A
Height	100mm	145mm
IP Rating	IP67 + IP69K	
Peak Current Draw	3A at 12V	
Night Mode Brightness	40%	
Operating Temperature	-30°C to +70°C	

P/No. 85264A

P/No. 85268A

### FLASH PATTERNS

Double Flash (SAE, ECE TA2)

Single Flash (SAE)

Steady

Quint

Rotate (SAE)
