DESCRIPTION

The Narva 98856HD-D is a premium LED rear combination lamp engineered for durability, safety, and performance in heavy-duty applications.

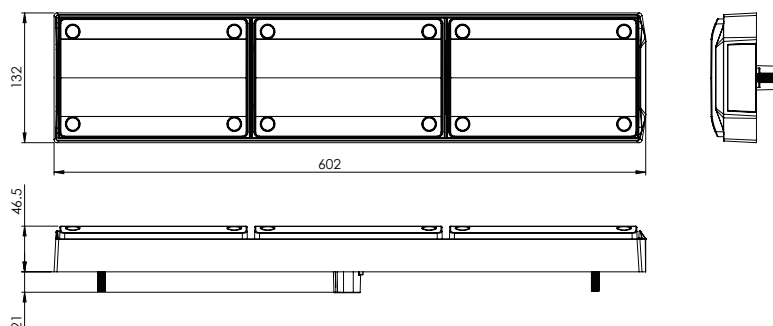

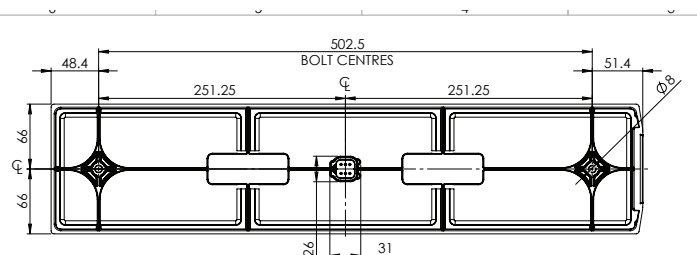

Designed with a sleek black housing and incorporating advanced LED technology, this lamp delivers reliable rear direction indication along with twin stop/tail functionality.

With a wide multi-voltage range and a robust Deutsch® connector, it's built to withstand the harshest environments—perfect for commercial vehicles, trailers, and industrial machinery.

FEATURES AND BENEFITS

- Ideal for even the toughest applications
- Triple lamp ideal for prime mover installation
- Integrated Deutsch® connector
- Grilamid® lens
