

WARNING

Read carefully and understand all instructions before operating.

Failures to follow the safety rules and other basic safety precautions may result in serious personal injury.

- Risk of electrical shock; do not use in an environment with gas, combustible or explosive materials, or hot objects
- Keep away from the reach of children
- Do not open, repair or modify
- Do not handle the light with wet hands
- Use only under the recommended voltage and frequency requirements
- Avoid looking directly into the beam of light, as this will result in dazzling
- Minimum distance from lighted objects 0.1m
- Use the correct charger to charge the light
- The specification in this manual is based on standard lab testing, different environment may influence the data
- To ensure battery longevity, recharge after each use; when not in regular use, charge every 3 months
- Replace the battery with manufacture and battery designation only

WARRANTY STATEMENT

Applicable only to product sold in Australia

Brown & Watson International Pty Ltd of 1500 Ferntree Gully Road, Knoxfield, Vic., telephone (03) 9730 6000, fax (03) 9730 6050, warrants that all products described in its current catalogue (save and except for all bulbs and lenses whether made of glass or some other substance) will under normal use and service be free of failures in material and workmanship for a period of one (1) year (unless this period has been extended as indicated elsewhere) from the date of the original purchase by the consumer as marked on the invoice. This warranty does not cover ordinary wear and tear, abuse, alteration of products or damage caused by the consumer.

To make a warranty claim the consumer must deliver the product at their cost to the original place of purchase or to any other place which may be nominated by either BWI or the retailer from where the product was bought in order that a warranty assessment may be performed. The consumer must also deliver the original invoice evidencing the date and place of purchase together with an explanation in writing as to the nature of the claim.

In the event that the claim is determined to be for a minor failure of the product then BWI reserves the right to repair or replace it at its discretion. In the event that a major failure is determined the consumer will be entitled to a replacement or a refund as well as compensation for any other reasonably foreseeable loss or damage.

This warranty is in addition to any other rights or remedies that the consumer may have under State or Federal legislation.

IMPORTANT NOTE

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

ADVANCED LIGHTING SYSTEMS

RECHARGEABLE L.E.D. Under Bonnet / Scene Light Instructions & Specifications

P/No. 71430

FEATURES

Featuring powerful SMD L.E.Ds producing 1000 Lumens of wide angle, even light. The charge base doubles as a powerful handheld torch for extra versatility.

- Powerful SMD L.E.Ds provide 1,000 Lumens
- Rotary switch to activate and adjust brightness
- 2 hours use at 100% output, 4 hours use at 50% output
- 3 – 4 hour charging time
- 2-in-1 charging base becomes a powerful dual function torch
- 800 Lumen flood beam or 400 lumen spot beam

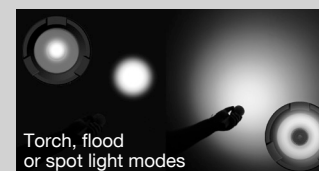

Bar extends from 1.2-2 metres

2-in-1 charging base

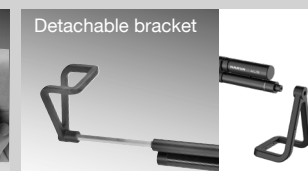

IP54 dust and water resistant

Torch, flood or spot light modes

Detachable battery

Detachable bracket

FEATURES (Continued)

Powerful SMD L.E.D.s producing 1000 Lumens of wide angle, even light. The charge base doubles as a powerful handheld torch for extra versatility.

Multi-functional Design

- Bar extends from 1.2 - 2m
- Coated brackets prevent scratches on car surfaces
- Detachable battery pack for charging
- Light can swivel 360 degree on the bracket
- Drop impact resistant
- The light will flash as a low power warning prior to the battery running out
- IP54 dust and water resistant

2-in-1 Charging Base

- Charging base also functions as a flashlight
- Flashlight has COB L.E.D. for flood light and SMD L.E.D. for spot light
- Optional charging base flashlight with COB, SMD and UV (P/No. 71484)
- Setting is recorded after 5 seconds of activation
- Recorded setting is recalled next time the device is activated

OPERATION

- Before using assemble two hooks to each side of the bar by supplied hexagon wrench, make sure the screws are firmly locked
- Fully charge the battery pack before use
- To turn on the light, rotate the gun metal ring located near the battery.

Charge the battery pack:

- Remove the detachable battery pack from the light and assemble to the charging base 240V AC power source. A green light will indicate when the battery is fully charged.

Additional flashlight function for the charging base:

- To use as a flashlight, attach the battery pack to the charging base
- Press the switch continuously for changing steps of light sources;
Cyclic steps Normal version for 71430: COB - SMD - off
71484: COB - SMD - UV - off

APPENDIX Optional Accessories (Not Included)

Part No. 71470

Heavy duty tripod stand

Adjustable height from 1.3 - 3m
Use with 71486 to hang the Under Bonnet / Scene Light

Part No. 71472

Heavy duty tripod wheel stand

3 durable wheels for portable and flexible use
Adjustable height from 0.75 - 1.8m
Use with 71486 to hang the Under Bonnet / Scene Light

Part No. 71486

Multi-functional fasteners (pair)

Use with 71470, 71472 to hang the Under Bonnet / Scene Light

Part No. 71483

Spare battery

To suit 71430

Part No. 71430

Charging cable

To suit 71430
