DESCRIPTION

The ULTIMA 180 LED Driving Light kit delivers exceptional illumination in a compact, high-powered design, ideal for vehicles with limited bullbar space. Packed with advanced features and cutting-edge technology, it outperforms expectations and sets a new standard in driving light performance.

FEATURES AND BENEFITS

- Compact yet powerful, providing illumination comparable to most 9" driving lights.
- Plug & play kit for simple and quick installation.
- Delivers up to 20% more output than the MK2, ensuring superior visibility in all conditions.
- Hybrid beam design combines the benefits of spot and flood beams for maximum light spread and distance.
- Operates on a wide voltage range of 9–33 volts, suitable for various vehicle setups.
- Seamlessly integrates with the Ultima Connect+ Controller for advanced lighting control options.
- Includes a 500mm flying lead with a pre-wired 6-pin Deutsch® Connector for secure and efficient installation.
- Features a satin bezel with the option to redeem a black bezel for a customisable aesthetic.

IP Rating	IP68 + IP69K
Current Draw	18.9A at 13.5V (Pair)
Design Registration Number	201610579
Effective Lumens per lamp	11,261Lm/ 12,463Lm (Boost)
Colour Temperature	5700°K
Operating Temperature	-40°C to +65°C
LED Spec	5W Osram
Supersedes:	71742BK
Comprises	2 x Hybrid beam LED driving lights 2 x Hard-coated polycarbonate clear lens protectors (P/No. 72223) 2 x Stainless steel mounting hardware kits 1 x 12V 'Plug & Play' wiring harness
